Gonzolo is a Hispanic Dwarf with no obvious cybertechnology save a trio of datajacks on his left temple. He walks around with a constant scowl on his face and in most situations can be counted on to be pessimistic. He prefers to mumble to himself in Spanish. The content of these conversations usually involves his certainty of bad outcome.

In his view, things would have been much simpler if Ghostwalker had not come to Denver. Not that he'd ever be unwise enough to voice those sentiments. Instead, he gets his revenge by breaking the dragon's rules. While working for Aztechnology, Gonzolo helped build several underground tunnels. These are the same tunnels he now uses to flaunt Ghostwalker's 'no smuggling' law.
