At 2m and 100kg, Miguel fills most rooms that he walks in. He’s loud, brash, and often tries to intimidate those around him if he thinks that he can get away with it. He is the street though down to his badly shaven head and gold plated tusk. The ork understands the pulse and hardship that moves through the squatter life. Since becoming more legit, he has developed a soft spot for some of the untouchable groups—older women and young children. Under his coat, Miguel generally has a couple bucks in hard currency or a few granola bars to pass out.
Dean is a late 20-something hacker for the Casquilho family. His good looks and charms have led him to seducing corporate secretaries/female wage slaves to gain access to their corporations for schemes of blackmail and extortion. Only once was he caught in a sting operation. That put him away for 5 years, but he gained respect, as he never gave up the family to police. He's moved away from his previous MO, to working money laundering and writing fake licenses for the Don.

The manager of Klub Karma, Lin Yao is a ranking member of the White Lotus Triad. She is a brutally emotionless woman who concerns herself only with the "bottom line." It is her attention to profit and gain, as well as her swift and no nonsense approach, which has attributed to her rapid rise through the Lotus ranks. Few would suspect the soul of a ruthless underworld figure lurks between her quiet, yet firm and businesslike, demeanor. She speaks with a slight Cantonese accent and avoids slang, relying on "business casual" English at all times, and demands that others who speak to her do the same.

Gentlemanly on the surface, Mikael is a scorpion in a silk suit. As a high ranking Avtoritey lieutenant, Mikael is always dressed to the nines and appears more suited for a boardroom than meeting with criminals. cresting six foot with close cropped black hair and dark brown eyes, Mikael speaks with a heavy accent that is only a few years removed from St Petersburg. The Russian disapproves of violence for its own sake and prefers to use the exact amount of force necessary. Enormously patient, Mikael only loses his temper in the face of impatience and violence.

A hacker with a background in biology, Dalhgren is a local representative of the GenePeace eco-terrorist group. Her strong convictions against all manner of genetic engineering have pushed her more than once to subtly attack the big names in the field. While not a technical prodigy, her mix of technical skills and strong ethical sense has made her an important asset in the eco-terrorist organization.

She considers herself a misunderstood heroine, forced to use unorthodox methods because no one else will do so. She strongly believes that metahumans shouldn't allow the megacorporations to rule what is life. She's an idealist, but she's also a realist. She will pick her fights with cunning, knowing when it's time to retreat and move on to another target.
