

The following changes should be made to the *Shadowrun, Fifth Edition* core rulebook to ensure consistency and coherence, and occasionally to correct something that did not work as we intended.

PLAYTESTING CREDITS (P. 7)

The following people should have been listed as playtesters, and we sincerely regret the omission: Jason Bertsche, Kyle Johntz Connor, Daniel Dunchack, Christian Hayes, Ken Horner, Thomas J. Howell, Richard Ingram, Ilya Medvedev

TROLL LIFESTYLE COSTS (P. 65, METATYPE & SPECIAL ATTRIBUTES)

The second sentence of this section needs to be clarified. Change: “Trolls receive Thermographic Vision, +1 Reach, and Dermal Armor, but they also receive the disadvantage of having to pay an additional fifty percent for gear because everything—including cyberware and bioware—must be specially modified to meet their massive physical requirements.” To “Trolls receive Thermographic Vision, +1 Reach, and Dermal Armor, but they also have the disadvantage of having their Lifestyle costs doubled to reflect the costs of adapting everything they use—especially their gear, including cyberware or bioware—to meet their massive physical requirements.”

DWARF RACIAL BONUSES (P. 66, METATYPE ATTRIBUTE TABLE)

“Thermographic Vision” should be added as a racial bonus for dwarves.

MYSTIC ADEPT POWER POINTS (P. 71, CHOOSE MAGIC OR RESONANCE)

The amount of karma mystic adepts spend to buy Power Points is changed from 2 Karma to 5 Karma per full Power Point. This also means the fifth bullet point under **Mystic Adepts** on p. 69 should be changed.

Since one of the example characters (the one being created by Kyra) is a mystic adept, this entails some changes in that character. She buys 2 Power Points at character creation instead of 5, and spends them to buy the following powers: Enhanced Accuracy (Automatics) (0.25), Improve Ability (Pis-

tols) (0.5), Improved Potential (Social) (0.5), Mystic Armor 1 (0.5), Voice Control 1 (0.25)

AGILITY SKILL LIST (P. 90)

“Herding” and “Lockpicking” should be removed from this list, as they are not skills in *SR5*.

TROLL AND DWARF GEAR COSTS (P. 94, SPEND YOUR RESOURCES, PARAGRAPH 3)

The paragraph that begins “When a character factors in racial modifiers” has information about gear costs for dwarves and trolls that does not apply in *SR5*. That paragraph should be removed and replaced with the following: “If the player finds that he or she has more than the 5,000 nuyen that can be saved (or even if he or she hasn’t), there are a few essential pieces of gear to consider when building a shadowrunner. You’ll want a commlink (p. 438) to stay in touch and to keep your gear relatively safe from hackers. A fake SIN (p. 442), along with some fake licenses, will help smooth dealing with law enforcement or even simple purchases like buying a bus ticket or covering a bar tab. For more ideas, see the Gear Checklist sidebar.”

SAMPLE CHARACTER CHANGES

Several changes are needed to the sample characters, including the following:

The **Street Samurai** should have a contact added: Fixer (Connection 4, Loyalty 2)

The **Street Shaman**’s Social limit should be changed from 7 to 8.

The **Combat Mage**’s Physical limit should be changed from 6 to 5.

The **Face**’s Physical limit should be changed from 3 to 4, and Mental limit changed from 5 to 6.

The **Tank**’s Physical limit should be changed from 10 to 9 (11).

The **Decker**’s Mental limit should be changed from 6 (7) to 7.

The **Drone Rigger**’s Physical limit should be changed from 6 to 5 (6), and the Mental limit changed from 5 to 6.

The **Sprawl Ganger**’s limits should be changed from Physical 8, Mental 4, Social 5 to Physical 9, Mental 5, Social 6.

The **Bounty Hunter**’s Physical limit should be changed from 7 to 9, and Social limit changed from 4 to 5.

It should read: "Recoil penalties are cumulative over every Action Phase and Combat Turn unless the character takes, or is forced into, a Simple or Complex Action other than shooting."

VEHICLE-MOUNTED WEAPONS CORRECTION (P. 183, GUNNERY)

In the second paragraph of the Multiple Attacks section, make the following change to clarify how Edge is applied in multiple attacks. Change: "Edge spent on this test adds into the pool before it is divided." To: "Dice gained by spending Edge applies before the pool is split, while dice from both pools can be re-rolled with a single use of Edge."

DAMAGING VEHICLE PASSENGERS CORRECTION (P. 205, DAMAGE AND PASSENGERS, PARAGRAPH 1)

The following change should be made in the last sentence of the paragraph. Change: The exceptions to this rule are ramming, full-automatic bursts and area-effect weapon attacks like grenades and rockets—these attacks affect both passengers and vehicles." To: "The exceptions to this rule are ramming, suppressive fire, and area-effect weapon attacks like grenades and rockets—these attacks affect both passengers and vehicles."

**RESONANCE AND ESSENCE CLARIFICATION
(P. 250, RESONANCE, PARAGRAPH 2)**

The fifth sentence of the paragraph should be altered. Change: "Whenever you lose Essence (after character generation), you lose an equal amount of Resonance, rounded up." To: "For every point (or fraction thereof) of Essence lost, both your current Resonance Attribute and your maximum Resonance Rating are reduced by one."

**DEACTIVATING FOCUS CLARIFICATION
